

## INDEX

### RUBBER CHEMISTRY AND TECHNOLOGY VOLUME XXXVI, 1963

#### AUTHOR INDEX

	Page
AKERSTROM, STIG. Determination of TMTD	305
AKRON UNIVERSITY. Bibliographies, 2nd issue	xvi
ALLEN, G., AND D. SIMS. Chain flexibility and intermolecular forces. IV. Internal pressure of polyethyleneglycol	1000
ALLEN, P. W. AND G. M. BRISTOW. Gel phase in NR	1024
AMBELANG, J. C., R. H. KLINE, O. LORENZ, C. R. PARKS, AND C. WADELIN. Review of antioxidants and antiozonants	1497
ANDREWS, E. H. Reinforcement	325
ANDREWS, E. H. Stresses at a crack	777
ASTM. Radiation effects on Materials, 2nd issue	xiv
ASTM Manual for conducting interlaboratory tests, 3rd issue	xvii
ASTM Index to standards, 3rd issue	xx
AUTERINEN, E., see Soininen, A.	
BALDI, L., AND R. ZANNETTI. Solubility and mobility of sulfur in ethylene copolymers, 3rd issue	660
BALDI, L., see Zannetti, R.	
BANERJEE, S., see Sazena, K. K.	
BARABOIM, N. K., AND V. I. POPOV. Mechanical reaction of SKB with maleic anhydride	
BARRER, R. M., J. A. BARRIE, AND N. K. RAMAN. Solution and diffusion in silicone and natural rubber. I. 3rd issue	
II. Influence of fillers	642
BARRIE, J. A., see Barrer, R. M.	
BARTENEV, G. M., AND G. S. KONGOROV. Polymer compatibility, 3rd issue	
BARTENEV, G. M., AND V. V. LAVRENT'EV. Law of friction for surfaces in elastic contact	
AND L. A. VISHNITSKAYA. Law of deformation	
AND YU. V. ZELENEV. Temperature and frequency dependence of dynamic deformation	
BEATTIE, W. H., AND C. BOOTH. Viscosity-mol. wt. relation for synthetic cis-1,4-polyisoprene	1035
BELYANIN, V. B., see Tutorskii, I. A.	
BEREK, D., see Lazar, M., Manasek, Z.	
BERMAN, B. Z., see Pechkovskaya, K. A.	
BERTHAM, H.-H. Mold release agents	1148
BHAUMIK, M. L., D. BANERJEE, AND A. K. SINCAR. Hard rubber reaction heat of	1059
BLATZ, P. J. Review of finite elasticity theory	1459
BELT, R. O., AND J. G. CARROLL. Radiation effects on organic materials, 2nd issue	xiii
BONOMI, G., see Fiorenza, A.	
BOONSTRA, B. B., AND A. I. MEDALIA. Effect of black dispersion on properties of vulcanizates	
BOOTH, C., see Beattie, W. H.	
BORODINA, V. N., see Taubman, A. B.	
BOYER, R. F. Review of transition temperatures and structure	1303
BREWER, P. I. Rubber as stationary phase in chromatography	310
BRIGGS, G. J., D. C. EDWARDS, AND E. B. STOREY. Water absorption of elastomers, 3rd issue	621
BRISTOW, G. M. Cold mastication of NR	102
—, see P. W. Allen	
BROOKS, L. A. Thiazoles and dithiocarbamates as antioxidants and accelerators, chemistry of	887
BROWN, H. P. Carboxylic elastomers cross-linking	931
BRUCKSCH, W. F. Vinylpyridine rubber-filler interactions	975
BUECHE, F., AND T. J. DUDEK. Tensile strength	1
BURAK, I. N. Molecular wt. of SKI-2 rubber	1042
BURGESS, K. A., see Hess, W. M.	
CARLSON, L. E., see Havenhill, R. S.	
CERESA, R. J. Block and graft copolymers, 3rd issue	xviii
CHASSET, R., see Thirion, P.	
CHERITOT, R., see Pinazzi, C.	
COOPER, W., D. E. EAVES, AND G. VAUGHAN. Polybutadiene and polyisoprene, solution properties	488
CRAIG, DAVID, see Westfahl, J. C.	
CRESPI, G., see Natta, G.	
DANJARD, J. C., see Pinazzi, C.	
DANNIS, M. L. Stress-strain testing at high elongation rates	28
DAVIS, D. D., see Slichter, W. P.	
DAY, R. B., AND S. D. GEHRMAN. Theory for meridian section of cord tires	11
DECKER, G. E., R. W. WISE, AND D. GUERRAY. Oscillating disk rheometer	451
DE MERLER, J., AND J. LE BRAS. Chemical modification on oxidizability of NR	1043
DIIBO, A., D. G., LLOYD, AND J. PAYNE. Sulfenamide accelerators under adverse conditions	911
DICKINSON, L. A. Elastomers from tetrahydrofuran and propylene oxide	296
DIVISION OF RUBBER CHEMISTRY LIBRARY. Bibliographies, 2nd issue	xvi
DOGADKIN, B. A., AND N. N. PAVLOV. Vulcanization, spectroscopy study of	262
DOGADKIN, B. A., see Pechkovskaya, K. A.	
—, see Tutorskii, I. A.	
DONNELLY, P. J. Semiautomatic extensometer	68
DOW CHEMICAL CO. Styrene type monomers, 2nd issue	xiv
DUDEK, T. J., see Bueche, F.	
EAVES, D. E., see Cooper, W.	
EDWARDS, D. C., see Briggs, G. J.

## SUBJECT INDEX

Page	Page		
Abrasion-reinforcement, evaluation.....	313	British rubber industry, Directory of, Book, 3rd issue.....	xx
Accelerated vulcanization		Butadiene	
Kinetics of.....	835	Polymerization with Ziegler catalysts <i>cis</i> and <i>trans</i> -1,4-polybutadiene.....	1571
With sulfenamides.....	844, 911	Butadiene rubber (BR)	
With MBTS.....	835, 863	Solution properties.....	488
See aldehyde amine accelerators, TMTD		Elution chromatography.....	502
vulcanization, scorch, dithiocarbamates, salts of thiazole thiols etc.		Aging of.....	747
Accelerators.....	1, 449	Mechanochemical modification.....	803
Determination of thiazole thiol type.....	835	Reaction with maleic anhydride.....	282, 803
Early paper on, see General Section of 5th issue		1-Butene-propylene copolymer	
Aging of stocks cured with dithiocarbamates and salts of thiazole thiols.....	887	See polyolefins, elastomeric, RUBBER REVIEW on, p. 1583	
Aldehyde-amine.....	259	2-Butene	
See peroxides		Ozonization of.....	201
Adhesion, Book 1st issue.....	xiii, xv	Butyl rubber, water absorption of.....	621
See reinforcement		Reaction with radiochlorine to detn. unsatn.....	1071
Affine and equilibrium deformations.....	1	Calculations for Curometer test.....	922
Age resistors, see antioxidants		Le Caoutchouc (Rubber), Book, 1st issue.....	xv
Agglomeration of filler particles		Carbon black	
See carbon black		Reaction of surface of.....	863
Agglomeration of latex by freezing.....	581	LiAlH <sub>4</sub> reaction.....	729
Agglomeration or "reagglomeration" in tread stocks		Internal field emission in filled stocks.....	740
See also RUBBER REVIEW on microscopy, p. 1175	754	Resistivity of black stocks.....	740
Aging effect on relaxation.....	50	Reagglomeration in filled stocks.....	754
Aging of butadiene rubber.....	747	Quinone content.....	863
Aging		Carboxylic rubber	
Effect on relaxation.....	50	Vulcanization.....	931, 568
See particular rubber, e.g., BR.....	747	See symposium on crosslinking, 3rd issue.....	xiv
See antioxidants, thiazole thiol salts (p. 887), dithiocarbamates (p. 887)		Cationic catalysts	
Of NR modified with maleic anhydride or saligenol.....	1043	Of diene polymerization. See RUBBER REVIEW on p. 1571	
Aldehydeamine accelerators, structure of.....	259	For cyclizing polymers, see particular polymer, e.g., NR	
Amorphous transitions		Centrifugation of rubber solutions	
See transitions		In the presence of gel.....	1030
Analysis, Industrial, Book, 3rd issue.....	xviii	Chain flexibility	
Of S cured, thiazole accelerated NR.....	835	And intermolecular forces.....	1000
See TMTD, MBTS, aldehydeamine		From sorption data.....	1003
Anionic coordinated polymerization. RUBBER REVIEW on polyolefins, p. 1583, and RUBBER REVIEW on diene polymerization, p. 1571		Chloral, reaction with rubber.....	1054, 1656
Antioxidants and antiozonants, 480, RUBBER REVIEW on, p. 1497		Chromatography	
Antiozonants		Elution, of polybutadiene.....	502
Mechanism of action.....	201, 194	Rubber as the stationary phase in.....	310
p-Phenylenediamines.....	537	Cobalt compounds	
See RUBBER REVIEW on antioxidants and antiozonants, p. 1497		In Ziegler catalysts, RUBBER REVIEW, p. 1571	
Anisotropic behavior		Cohesion, Book, .....	xiii, xv
Finite elasticity theory and, see RUBBER REVIEW, p. 1459		See also adhesion	
ASTM index to standards		Cohesive energy density	
3rd issue.....	xx	And transition temperatures, see RUBBER REVIEW, p. 1303	
Asphalt, tars, pitches, see resins		Compatibility of polymers	
ASTM manual for interlaboratory testing STP335, 3rd issue.....	xvii	Determination by dilatometry.....	668
Banbury—the master mixer, biography, 1st issue.....	xiv	Compliance and creep of rubber.....	611
2nd issue.....	xv	Compression	
2-Benzothiazolyl sulfonate		Effect on shear modulus.....	675
IR spectrum of, formation during cure, etc.....	889, 891	Conductivity	
Biaxial deformation and apparatus for, see RUBBER REVIEW on finite elasticity theory, p. 1497		Thermal.....	75
Bibliographies, Rubber Division Library, 2nd issue.....	xvi	Electrical, see RUBBER REVIEW on, p. 1230	
Bibliography of Rubber Literature, M. E. Lerner, Editor-in-Chief, Book review, 1st issue.....	xiv	Contributors to rubber literature	
Block and graft polymers, 3rd issue.....	xviii	Addn. of R. A. Mathes to 100 Top, 3rd issue.....	xvii
Branching		Coordinate indexing, Book, 3rd issue.....	xx
In polybutadiene and <i>trans</i> polyisoprene.....	488	Copolymers	
In polyisoprene.....	807, 815	And transition temperatures	
		See RUBBER REVIEW on, p. 1303	
		Coumarone-indene resins, see RUBBER REVIEW on resins, p. 1542	
		Cracking	
		Treat groove and reagglomeration.....	754
		Stress-strain distributions around cracks in an elastomer.....	777
